**PETITION FOR REVIVAL OF UNINTENTIONAL ABANDONED APPLICATION**  
**AND AMENDMENT**

Sir:

The above-identified application became abandoned for failure to file a timely and proper Issue fee to the United States Patent and Trademark Office. The present response and amendment results from a telephone conversation between the examiner and the applicants' attorney. The examiner requested clarification for a chemical structure in the application for printing purposes for the issuing patent. The substitute sheet enclosed herewith clarifies the typographical error with regards to the structure on page 168. This amendment does not introduce any new matter.

Applicants hereby petition for revival of this application. A grantable petition requires the following items:

- (1) Petition fee;
- (2) Issue fee; and
- (3) Statement that the entire delay was unintentional.

Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.

Applicants hereby authorize the Commissioner to charge any fees due, which have not already paid during this electronic submission, to deposit account number 50-4237.

**Amendments to the Specification** begin on page 2.

**A Substitute Sheet** begins before the remarks on page 3.
